TYLNEY HALL HOTEL

our *partners*

At Elite Hotels, we pride ourselves on creating exceptional spa experiences where every detail is thoughtfully considered. Our treatment partners are chosen not only for their proven results, but for their shared commitment to quality, integrity and wellbeing. Both ishga and OSKIA embody our values through their respect for nature, advanced expertise and dedication to delivering meaningful, results-driven experiences. Together, they allow us to offer our guests restorative journeys that nurture the skin, calm the mind and elevate every moment spent with us.

ishga

Born from the elemental beauty of the Hebrides, ishga is a luxury organic skincare brand inspired by the restorative power of the sea. Derived from the Gaelic word for water, ishga is deeply connected to the pure Hebridean waters surrounding the Isle of Lewis.

Since 2013, four species of seaweed have been sustainably hand-harvested and carefully extracted to preserve their potent vitamins, antioxidants and bioactive minerals. This powerful marine infusion forms the foundation of every ishga treatment, delivering deeply calming and skin-restoring results while encouraging reconnection of mind, body and soul through nature's rhythm.

Organic Seaweed Skincare

oskia

Founded on the belief that truly radiant skin begins with optimal nutrition, OSKIA is a luxury skincare brand driven by advanced skin science.

Established in 2009, OSKIA combines bio-nutritional expertise with naturally derived, bio-identical ingredients to create high-performance formulations.

At the heart of every OSKIA treatment is the MSM Regen Complex™, a unique blend of vitamins, minerals, peptides and amino acids designed to support cellular renewal, enhance luminosity and strengthen the skin barrier.

Created by leading skincare scientists and produced in OSKIA's own Welsh laboratory, each treatment delivers visible results while restoring balance, vitality and lasting radiance.
